FAQ.

Q: What kind of SIM card is suitable for this watch?

A: The watch only supports SIM card with communication standard starting from 2G GSM. To make a phone call, the voice call service of the SIM card must be activated. Please contact your local communication operator for more information.

Q: Can I use the watch without a SIM card?

A: If the watch does not have a SIM card, communication-related functions such as calling will be disabled.

Q: What are the charger requirements?

A: Use a USB charger for the watch. It is recommended to use ONLY a 5V cell phone charger (1A recommended). Attention: Avoid using the charger more than 5V output, exceeding that voltage is harmful to the device.

Q: How long does it take to fully charge the watch?

A: The watch may take 2 to 3 hours to charge. There is a charging icon on the watch that indicates the current charge. When the charge is low, charge it immediately.

Q: It does not turn on.

A: The battery charge is completely depleted if the watch is not used for a long time. Before trying to turn it on again, first charge it for at least 10 minutes.
