

Bluetooth Car Charger

User guide

Thanks for purchasing. Please read this operating manual carefully before using in order to ensure correct use and proper functions.

This product is a special Bluetooth car charger with Mp3 play, adopts professional high-performance Bluetooth module built-in Mp3/WMA decoder chip that can transmit music files inside the USB disk to car stereo via wireless, and can switch an incoming call to the hands-free state as long as your mobile phone is provided with the Bluetooth function. When the call is finished, it will be switched to the music play automatically, it can also send the music in your phone to your car sound wirelessly. You can enjoy the music and answer the call in hand free mode without

refitting your car, which ensure the driving safety while enjoying music.

Power off memory

Every time when you power off this product, the system will memorize the information like the FM frequency and the song you are playing. And when you use it next time, the song will continue being played. But when you remove or change the storage or the system detects the wrong status, the system will play the first song.

Technical Parameters

Rated working voltage	12V-24V
Limit working voltage	9-26V
USB output	5V/2.5A
Working temperature	0-50
Play format	Mp3 WMA WAV FLV
SNR	>60Db
Degree of distortion	<0.1%
Frequency response	20Hz-15Khz
Resolution of right and left channel	>60DB
Bluetooth version	Version 2.1+EDR
BLUETOOTH SOUND PROCESSING	A2DP(ADVANCE AUDIO DISTRIBUTION PROFILE)FUNCTIONSUPPORTED
Bluetooth transmission distance	10M
Effective distance of Bluetooth microphone	0.5-2M
FM frequency	87.5-108Mhz
FM Mode	Stereo digital PLL frequency locking

Attentions

1. When the U-disk is inserted, Line in function is on and Bluetooth function is turned on, once booted, the product will connect automatically with the phone via Bluetooth.
2. Never turn the volume to be too loud when FM is working so as to avoid the sound distortion. Please adjust the sound volume through the car audio.
3. Built-in antenna is with strong signal so as to get better sound effect.
4. The method to operate the Bluetooth may differ due to the difference of the phones applied.
5. Some phones may not support automatic connection if they are powered on after the power failure. If so, please connect them by hand.
6. This product is compatible with more than 95% phones on the market but some are still incompatible. Please pay attention to it when purchasing our product.
7. The volume should be proper during the call to avoid affecting the other party.
8. Do not use this product in the environment with high temperature, dusts or moisture.
9. Avoid dropping the product to prevent damage to the surface or the body.
10. The Bluetooth of this product supports background play. If there is prompt tone when playing music with LINE function, it will be automatically switched to the Bluetooth mode. To return to LINE function, please pull and plug LINE again.
11. When the device is out of use for a long period time, it should be pulled off from cigarette mouth of the car. At the

time of normal use, it is inserted for use after the car is ignited to avoid damage caused by high ignition voltage.
