

# LCD04 Writing and Drawing Tablet

## Instruction Manual

### Tablet Parts

1. Deletion lock

2. Battery compartment

3. Delete button

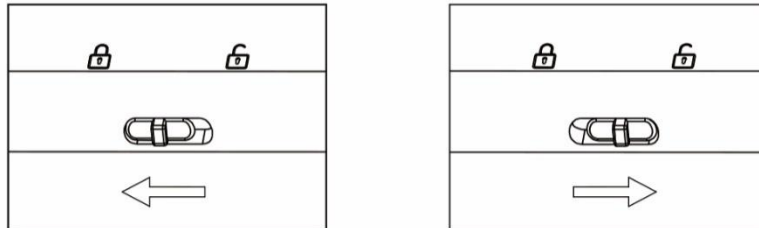

4. Stylus pen

## Mode of use

- For a better writing experience and to avoid damage to the screen surface, use the stylus included with this product.
- One-click erase your drawings and notes by pressing the erase button.

## Lock button

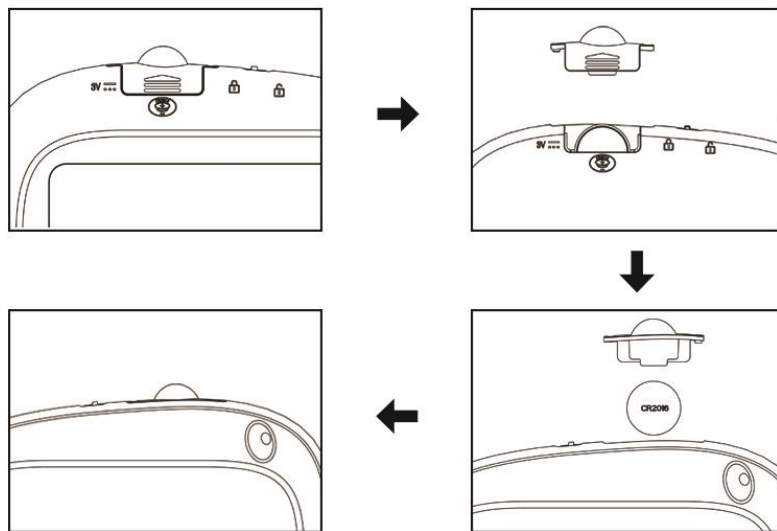

Slide the switch to the right to lock the erasure to prevent erasing the contents of the screen by mistake and to the left to allow erasing.

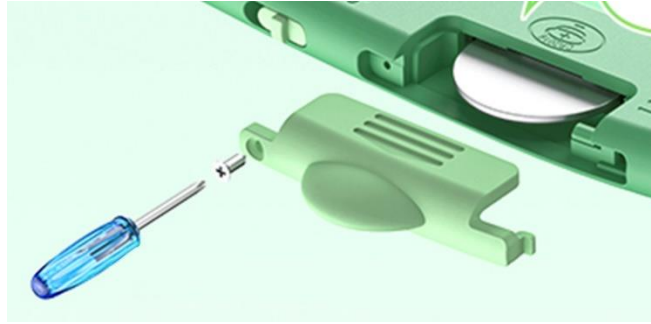

Note: The lock switch is disabled at the factory.

## Batería

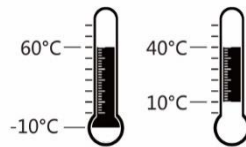

The battery used in this unit is not rechargeable; the battery must be inserted with the correct polarity; the dead battery must be removed from the toy; the power terminals must not be short-circuited; the type of battery that can be used is a 3V DC button cell battery. Refer to the following replacement sequence indicator to remove and insert the battery:

**Battery replacement:** Remove the safety screw and remove the battery holder, remove the battery, insert a new CR 2016 [3V] button cell battery and insert the battery holder back into the slot.

## Maintenance

Cleaning method: Clean only with a soft cloth without detergents or chemicals.

Storage temperature: -10°C - 60°C (-10°C - 140°F - 60°C)

Operating temperature: 10°C - 40°C
