

J11 Wireless Microphone

User's manual

Introduction

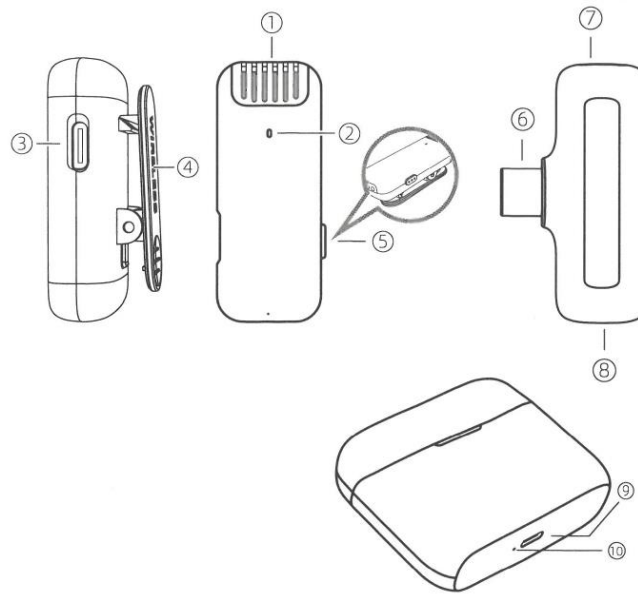

Thank you for choosing our product. This product is a smart wireless microphone that provides professional quality recording output. It is “Plug and play”, which means it does not require you to install any app on your mobile.

Multiple uses: it can be used in online live broadcasting, video shooting for your Vlog, program interviews, recording, tutorial videos and other occasions. This product consists of three parts: charging box, microphone transmitting end and receiving end (as shown in the figure below, some models might not have charging box, the actual item might vary a little from what shown in the picture).

1. Charging box
2. Transmitter microphone
3. Receiver

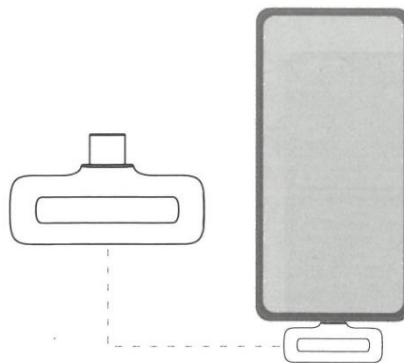

Identification diagram

3. Microphone Type-C charging port
4. Clamp clip.
5. Switching button
6. Type-C port to connect to the phone
7. Receiver indicator
8. Receiver
9. Charging box indicator light
10. Type-c charging port on the box

How to use

Step 1: Connect the receiver to the phone port.

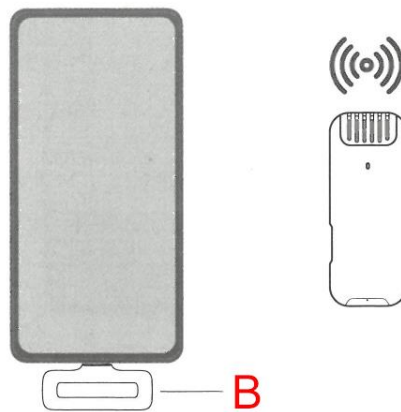

Step 2: Press the microphone switch key, the indicator light shows green, and then the power is turned on.

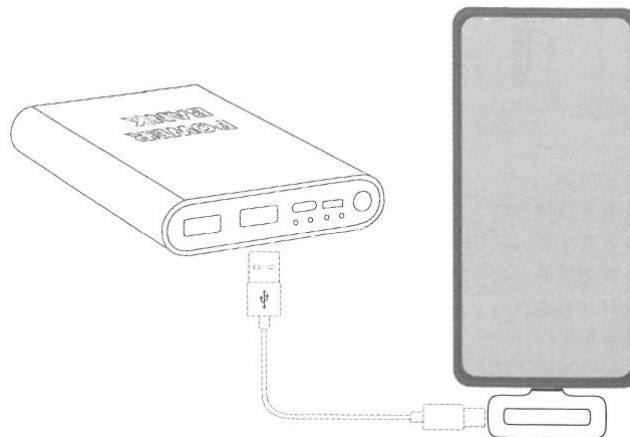

A. Switch key

Step 3: Now the green indicator light on the receiver is always on; open the phone's camera, live application or other applications and use the microphone to pick up the sound.

B. Green light indicator always on

Special note: For port usage: If the phone is low on power during a live stream, it can be charged directly through the Type-C port.

Function, button and LED indicator

Microphone transmitter:

Power On: Press the power button for 3 seconds, the led light will turn on alternately red and green.

Off: Press the power button for 3 seconds, all lights will turn off as well.

Unpairing: the led light will turn on alternately red and green.

Connection: Insert the device into the phone port and turn on the power.

Change the noise reduction level: Press the button to choose one of the 3 levels:

Level 1: Green light flashes once.

Level 2: Green light flashes twice.

Level 3: Green light flashes three times.

Reverberation: Click the button 3 times to turn on the mode; the green light turns off, the red light flashes once and then the red light stays on.

Silent mode: Double click to mute the microphone and double click again to reset the volume; the green light flashes and the red light turns off.

Charging: Charging: red light turns on and green light turns off; when charging is complete, all lights turn off.

Low battery: red light flashes every 10 seconds.

Receiver:

On: Insert the device to the phone port and turn on the power, red light flashes.

Off: Remove the device from the phone port.

Unpaired to receiver: red light flashes.

Connection: Red light stays on.
