TF card installation and precautions:

1. Please insert the TF card into the TF card slot in the right direction until the TF card is fixed in the slot. The TF card must be a high speed card above C10 to be used. Please do not plug or unplug the TF card while the machine is working, so as to avoid damage to the machine and TF card.

2. Please pay attention to the installation direction of the TF card. Installing the card from the wrong side may cause damage to the card, the slot and the camera.

3. The camera will set the TF card as the priority storage device. The previous original data on the TF card may not be identified. Therefore, please make a backup of the files before installation.

4. If the TF card is incompatible with the machine, please format the TF card or use a new TF card.

Parameters:

Product Name: Children's Camera and Printer

Model No: K27

Display: 2.0"

Function: Photo / video / print

Paper size: 57x25mm

Battery capacity: 1400mAh

Usage time: About 4.0 hours

Charging time: About 2.0 hours

Recording time: About 2.5 hours

Maximum TF card support: 32Gb

Camera weight: 181.8g

Charging voltage: 5V/1A

Precautions:

1. Regularly check the integrity of the toy. If there are obvious damaged parts, please stop using it and keep it away from children. Do not let children play with disintegrated, damaged or deformed toys to avoid accidental ingestion, choking and other hazards.

2. The built-in non-removable battery can only be used and charged under adult supervision.

3. When children are playing, please keep away from very hot areas or fire.

4. Do not store in a place near fire, high temperature and humidity.

5. If you notice the speed is slow or abnormal, please charge it timely.

6. The power switch should be turned off after each use.

7. If you are not going to use the camera for a long time, please fully charge the battery before turning off the power switch.

Safety precautions for use and battery charging: Toys should not be used by children under 3 years of age; this camera has a built-in 3.7V/1400mAh polymer battery, which cannot be disassembled or replaced. If damaged, contact an authorized service center for repair.

Toys cannot be connected to more than one 5V power supply; Toys can only use the recommended transformer (recommended specification: DC 5Vm 1000mA); Transformers are not toys; The charger must be used by an adult or under adult supervision; Cables, plugs, housings and other parts of the charger must be checked regularly for damage.

If damage is detected, discontinue use until repairs are completed.

Maintenance: Do not immerse it in water or place it in a humid environment; Pay attention to cleaning, if dust is present, clean it with a dry cloth.
