Message Notification: An alert signals message arrival with vibration. (Enable Message Notification on your mobile device app).

Charging Wristband
Please charge wristband fully before using it the first time.
In order to charge correctly, please follow the steps below:
- Remove the receiver piece from the wristband.
- Connect the receiver piece to your computer or adapter the with a USB cable. It may take about half an hour to fully charge

your device (5v. 60MAH).

Smart Phone Requirements
It requires OS to be iOS 7.0 or greater/ Android 4.3 or later, and Bluetooth 4.0. The wristband will automatically sync your data in real time through Bluetooth wireless syncing. Please scan the QR code on the cover page or search "V-BAND" in the app stores to download the App.

App Initial Setup and Device Pairing
Your device must be paired directly through the application "V-BAND" to sync the data.
1. Turn on your wristband.
2. Switch on the Bluetooth function of your device.
3. Tap the App "V-BAND" to launch the application and begin the initial setup.
4. Pairing: Tap the icon "Setting" then "Bluetooth Device". Select your device from the list of Bluetooth devices and connect.
5. Personal Information Register: Input your personal information and sync Smart Band.
NOTE: The default step length is 40cm. To measure your step length, you can walk ten steps, measure the distance and divided by ten.
6. Goals: Enter your personal goals for steps, distance, calories and sleep time.
7. Synchronize: tap this item to sync the sleep data. Tap "Home" key of the mobile device, you will go back to Home interface of the mobile device, but the application will run commands in background. Tap "Back" key, the application will hint "Press back once more to exit". If you exit from the application, the device will be disconnected.
